

- Have your own Save the Coral Reefs event at school. Ask your teacher if you can make a display and do a presentation for the class.
- Make a poster warning people not to touch the delicate corals.
- Create a coral reef collage using colourful scraps of fabric, ribbon, tissue paper and sweet wrappers.
- Visit an aquarium to find out more about coral reefs.

### Top Tip

Pollution and litter can damage coral reefs, even over long distances. Keep the environment clean, wherever you are!

### Coral's challenge

- + Make a book about coral reefs.
- + Find out lots of fascinating facts. How do coral reefs grow? What do the fish eat?
- + Draw colourful pictures of at least 10 types of coral or fish.
- + Finally, make your book cover and ask an adult to staple the book together.
